

MUSIC

Weekly Ukulele lessons on a Monday morning.

P.E.

P.E kit to remain in school at all times until holidays. Please ensure that all PE clothing is named. P.E. is on Wednesdays and Thursdays. We will be working on movement skills and playing team games.

ART AND DESIGN

Our Art work will be linked to our Romans topic. The children will focus on sculpture and textiles to make Roman artefacts.

DESIGN TECHNOLOGY

The children will work on building strong structures and will relate this to buildings made in Roman times. They will also make some food based on those eaten by the Romans.

REMINDERS

Water bottles: Please ensure your child has a water bottle in class with their name on. (Please make sure that the bottle only contains water). Year 3 children no longer have a snack in school, they also have a longer school day and a shorter lunch. They are welcome to bring in a **snack** from home to have at playtime. This must be fruit or vegetables.

Reading at home is one of the most important things that your child can do. Please can you ensure that your child reads as often as possible, including their own books.

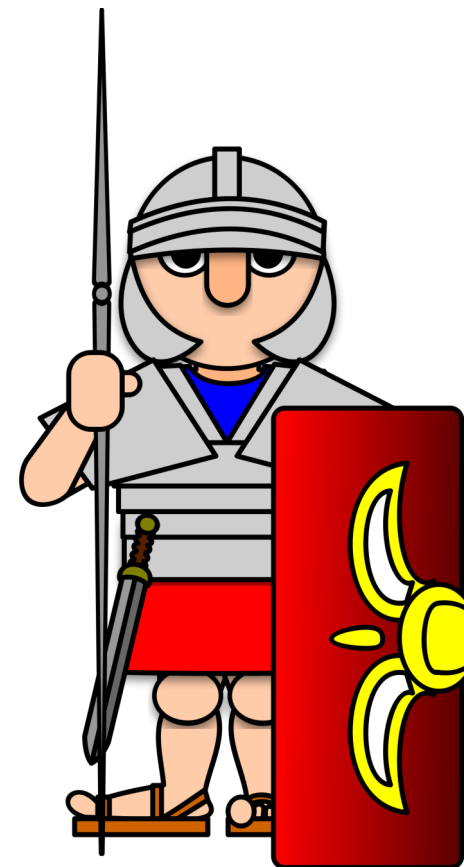

If you have any questions please contact the school office to make an appointment to see me.

Many thanks, Mrs Cornley

Class 3

Autumn 2017

The Roaring

Romans

ENGLISH ACTIVITIES

Writing

During this term the children will be building on the skills of Year 2 including using capital letters and a range of punctuation.

In addition they will be :

- ◇ Learning to use a wider range of conjunctions
- ◇ Starting to organise writing into paragraphs
- ◇ Using commas and apostrophes
- ◇ Writing for different purposes

And learning a wider range of spelling patterns and tricky words.

Reading

The children will be given opportunities to read every day. This maybe individually, in a group or as a whole class.

They will also be:

- ◇ Researching information about Roald Dahl and his books
- ◇ Reading non-fiction texts about the Romans
- ◇ Learning to read more speedily
- ◇ Understanding what has been read and being able to discuss it
- ◇ Predicting what might happen next.

MATHEMATICS ACTIVITIES

This year, the children will be taught Maths using a 'Mastery' approach. Through this, they develop a much better understanding and learn to solve mathematical problems.

They will practise times tables and mental skills every day. Other Maths activities will include:

- ◇ Learning about numbers up to 1000
- ◇ Comparing and ordering numbers
- ◇ Counting in 4s, 8s, 50s and 100s
- ◇ Investigating different ways to solve addition, subtraction, multiplication and division.

SCIENCE

This year is the year of Science in local schools and so the children will be taking part in lots of exciting activities.

The children will learn about famous Scientists and Inventors. They will learn about how their work effects our lives and as a school, we will pick one person to find out more about. They will learn about what animals, including humans, need to eat to be healthy and will link this to foods eaten in the past.

GEOGRAPHY ACTIVITIES

During this half-term the children will be studying maps and identifying different counties, countries and cities of the U.K. They will also be looking at the Geography of Italy and learning about the routes that the Romans took.

HISTORY ACTIVITIES

The children will be finding out about how life changed in Britain when the Romans invaded. They will learn about why the Romans went to certain places and will find out about Roman features that can still be seen today.

COMPUTING

We will be accessing ICT in all curriculum areas. In computing lessons we will improve our skills when presenting information, for example by inserting graphics. We will talk about being a good digital citizen and staying safe on-line.

Article 29: Education should develop each child's personality, talents and abilities to the fullest.

Article 28: Every child has the right to an education
